

# ANYWHERE SLIDESHOWS DOCUMENTATION

Thanks for purchasing this module

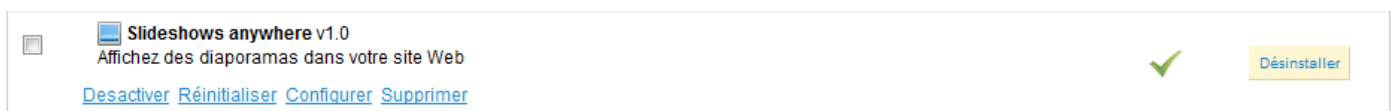

Support : <http://support.appside.net>

## INSTALLATION :

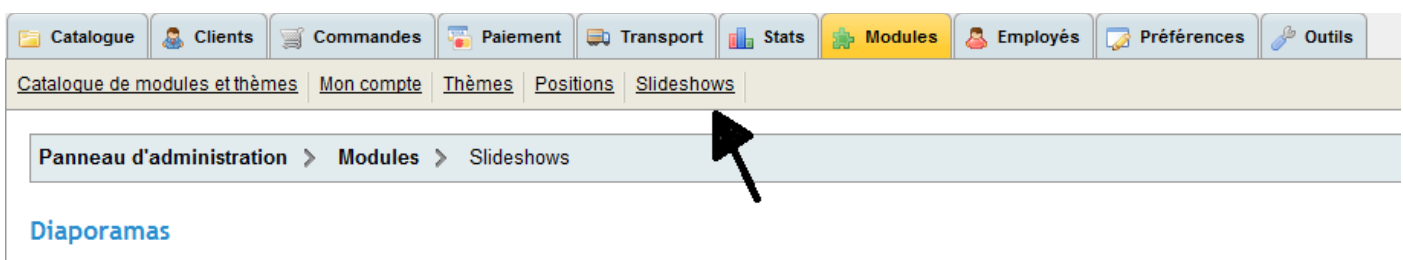

1. Upload the directory « pslideshows » into your Prestashop modules folder

2. In your Prestashop backoffice, go to the “Modules” tab, then in list find “slideshows anywhere” and install it.

3. Now in Modules sub tab navigation menu, there is new “Slideshows” link.

That's all, Slideshows anywhere is successfully installed.

## USE ANYWHERE SLIDESHOWS

1. Go to the “**Slideshow**” tab, it’s the module dashboard, you have all you need to view, add, edit and delete slideshows.

Panneau d'administration > Modules > Slideshows

### Diaporamas

[+ Nouveau](#)  **New Slideshow**

Page 1 / 1 | Afficher 50 / 1 résultat(s) [Réinitialiser](#) [Filtrer](#)

ID	Nom	Activé	Emplacement	ID's	Nombre d'images	Actions
--		--				--
1	My Slideshow 1	✓	Anywhere		0	 
2	Slideshow 2	✓	Anywhere		2	 

[Supprimer la sélection](#)

### Toutes les images des diaporamas

[+ Nouveau](#)  **New image**

Page 1 / 1 | Afficher 50 / 0 résultat(s) [Réinitialiser](#) [Filtrer](#)

ID image	ID slideshow	Activé	Titre	Lien	Image	Actions
--		--				--
1	2	✓				 

2. Create new Slideshow, fill out the form below with your values.

 **Slideshow**

**Internal name**

**Location**

 Go to your theme directory : themes/prestashop/  
and copy the following tag in the template (.tpl) where you want to make appear the slideshow :  
`{displaySlideshow id=1}`

**Status** ☒  ☐  ☐ 

**Size** Width  px Height  px

[Save](#)

**Internal name** is only a title for remembering what this slideshow is, this value will not appear in front office.

**Location** is where you want to display the slideshow, let “**Anywhere**” if it’s not in category page, product page or cms page.

Below this field, **help box** inform you what is the tag that you must copy in your theme template (.tpl) in the location where you want to see the slideshow.

Location  Only for ID's :  Separated with a comma , ex : 5,7,9

? Go to your theme category page : themes/prestashop/category.tpl  
and copy the following tag where you want to make appear the slideshow :  
**{displaySlideshow id=1}**

If you want to display your slideshow into a cms, category or product page **you can enter specific ID's for displaying it for only certain category or product ...**

So in in this example, slideshow only appears when categories 3, 4 and 5 are loaded.

3. Once the form is complete, and slideshow created, **you must copy slideshow tag in your template :**

```
category.tpl
19  *
20  * @author PrestaShop SA <contact@prestashop.com>
21  * @copyright 2007-2011 PrestaShop SA
22  * @version Release: $Revision: 1.4 $
23  * @license http://opensource.org/licenses/afl-3.0.php Academic Free License (AFL 3.0)
24  * International Registered Trademark & Property of PrestaShop SA
25  *}
26
27 {include file="$tpl_dir./breadcrumb.tpl"}
28 {include file="$tpl_dir./errors.tpl"}
29
30 {displaySlideshow id=1}
31
```

4. To add images in slideshow, click to **"Add new image in this slideshow"** complete the image form :

Slideshow image

Title

Title to display in overlay or image ALT attribute

Image

Parcourir...

Link

Ex : http://www.google.com

Open link in a new page

☒

Slideshow

Slideshow 1

Slideshow where image will appear.

Save

\* Required field

5. In front Office your images will displayed in their slideshow :

Accueil > iPods

**IPODS** *Il y a 3 produits.*

**With tag, you can override configuration for each slideshow :**

Example :

```
{displaySlideshow id=3 show_pager=0 width=400 height=200 effect='fade'}
```

**Available settings :**

**show\_pager** : 0 / 1

**width** : numeric value

**height** : numeric value

**effect** : 'fade' / 'vertical' / 'horizontal'

**transition\_pause** : numeric value

**transition\_speed** : numeric value

**show\_arrows** : 1 / 0

**random\_start** : 1 / 0

**show\_title** : 1 / 0
